1. INTRODUCTION

➤ Project Profile

Project Definition:- An Bridal Studio website all packages, all academy courses and all of the charges and services are defined. The main goal is to provide all information easily define in one website, booking management, student enrollments and client service.

Project Member Name:- Kalsariya Krishna (Seat No. 65)

Marakana Bhumi (Seat No.87)

2. ENVIRONMENT DESCRIPTION

➤ HARDWARE CONFIGURATION

Processor	2.40 GH Intel(R) Core(TM) i5-6200U
Hard Disc	1TB
RAM	16GB
CD Drive	hp DVDRW GUD1N
Key Board	Standard PS/2 Keyboard
Mouse	Synaptics SMBus TouchPad
Monitor	Generic PnP Monitor
Networking	Lan Card (Must be internet connection) or modem

➤ SOFTWARE CONFIGURATION

- Google Chrome , Microsoft Edge
- Visual Studio Code
- Firebase Database

➤ SERVER CONFIGURATION

- Firebase Server: Version 11.4.0
- Windows : Windows 11

3. PROBLEM SPECIFICATION

3.1 SCOPE OF WORK

To design and develop a bridal studio management system that streamlines the operations of bridal studios by integrating functionalities such as appointment Booking, student enrollment and client management.

1. Requirement Analysis :

- > Define the target audience such as admin, clients and students.
- > Determine package, student courses and feedback or reviews.

2. Appointment Booking :

- > Manage multiple clients booking to avoid conflicts.
- > Allow clients to select packages, services and give requirement.

3. Student Enrollment :

- > Manage multiple students enrollments to avoid conflicts.
- > Allow students to select courses and give time.

4. Package Management :

- > Offer customizable bridal packages combining makeup.
- > Insert new packages ,update old packages, search packages and delete Unavailable packages.

5. Course Management :

- > Insert new Courses, update old Courses, search Courses and delete Unavailable Courses.

6.Feedback and Reviews :

- >Allow clients to leave feedback on services and overall experience.
- >Use ratings and reviews for continuous improvement.

3.2 MODULES

1.Admin Module :

- >Approve or cancel appointment.
- >Approve or cancel enrollments.
- >Specific reason.

2.Client Relationship Module :

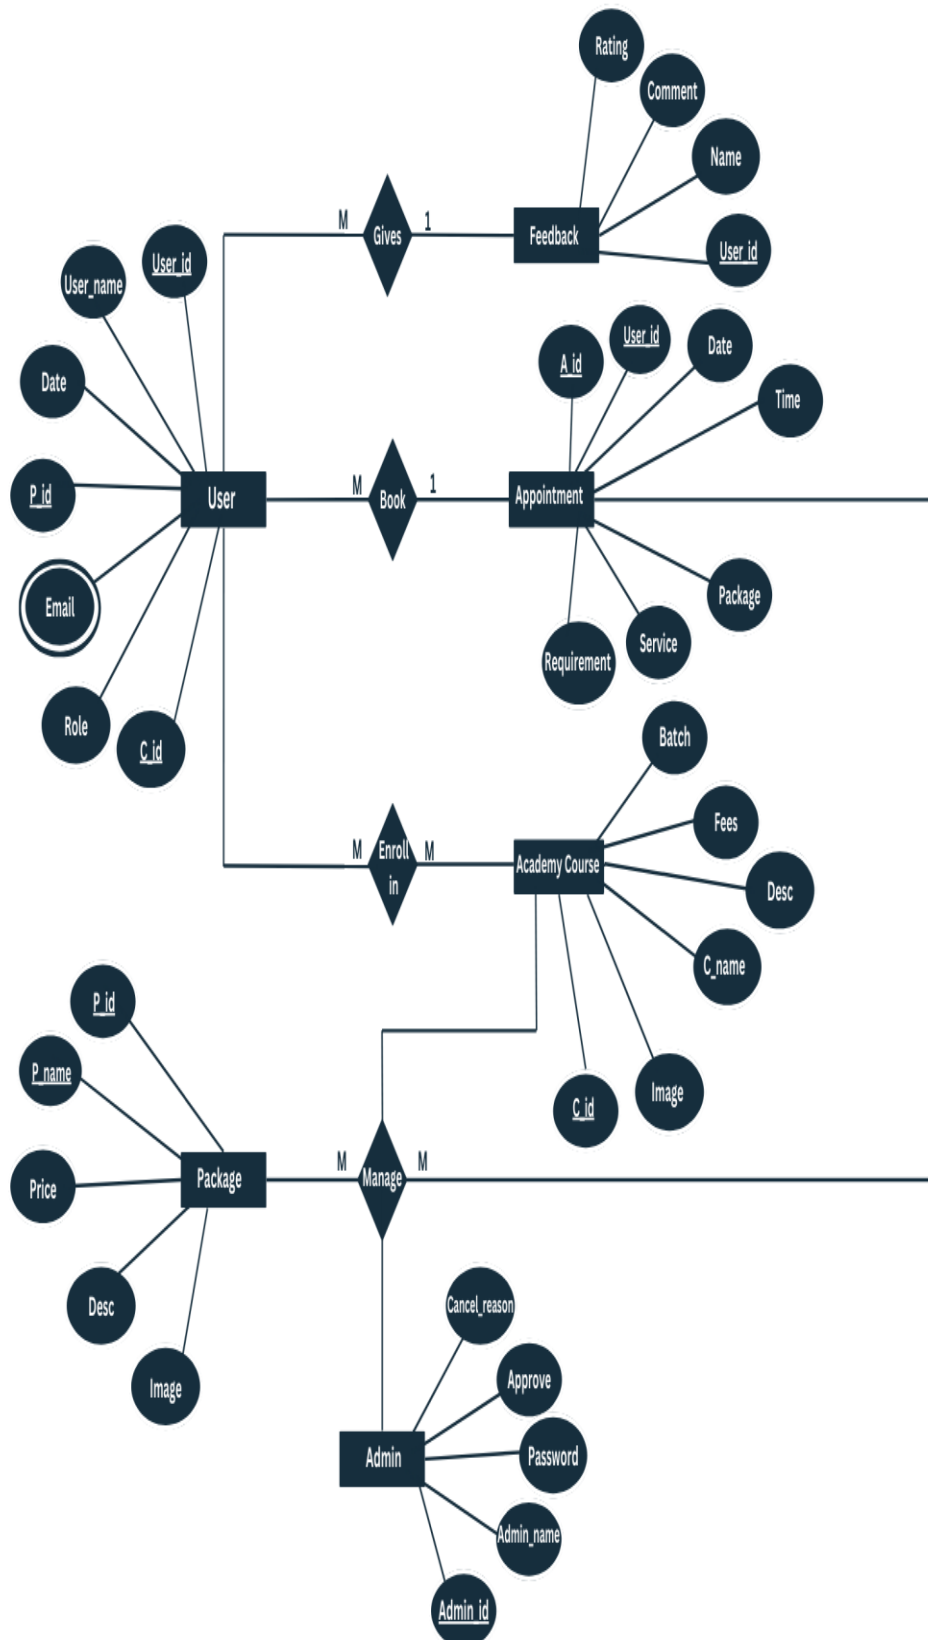

- >Client profile and customer registration.
- >Clients can give feedback for services and packages.
- >Display feedback on the dashboard for quick resolution of issues.

3.Student Registration Module:

- >Student profile and student registration of specific course.

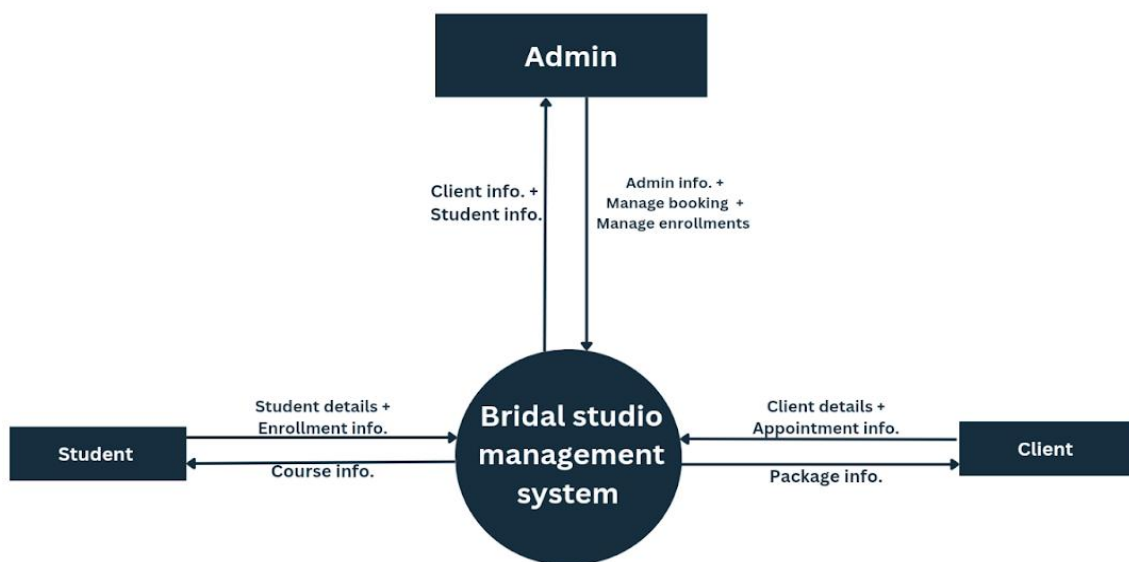

4. SYSTEM ANALYSIS AND MODELLING

4.3 DATA DICTIONARY

1. Admin

Name	Description
Alias Name	Admin
Where and how used?	Used for managing studio Details, package, academy course and user Records.
Description	Registration and profile Information of admin.
Attributes	Admin_id (primary key), Admin_name, password.

2. Client

Name	Description
Alias Name	User
Where and how used?	Used to booking Appointment and giving Feedback.
Description	Store personal and booking Related details of client.
Attributes	Client_id (primary key), name, email, appointment_date.

3. Packages

Name	Description
Alias Name	Packages
Where and how used?	Used for managing available Bridal services and offers.
Description	Lists detail about services Provided and pricing.
Attributes	Package_id (primary key), Packagename, price, description.

4. Appointments

Name	Description
Alias Name	Booking
Where and how used?	Managing appointments for Makeup trials and maintaining workflow.
Description	Stores the schedule of client appointments.
Attributes	Appointment_id (primary key), Client_id(foreign key), date, time.

5. Academy courses

Name	Description
Alias Name	Courses
Where and how used?	Used for managing available Student courses and offers.
Description	Lists detail about courses Covers and pricing.
Attributes	Course_id (primary key), Cousename, price, description.

6. Enrollments

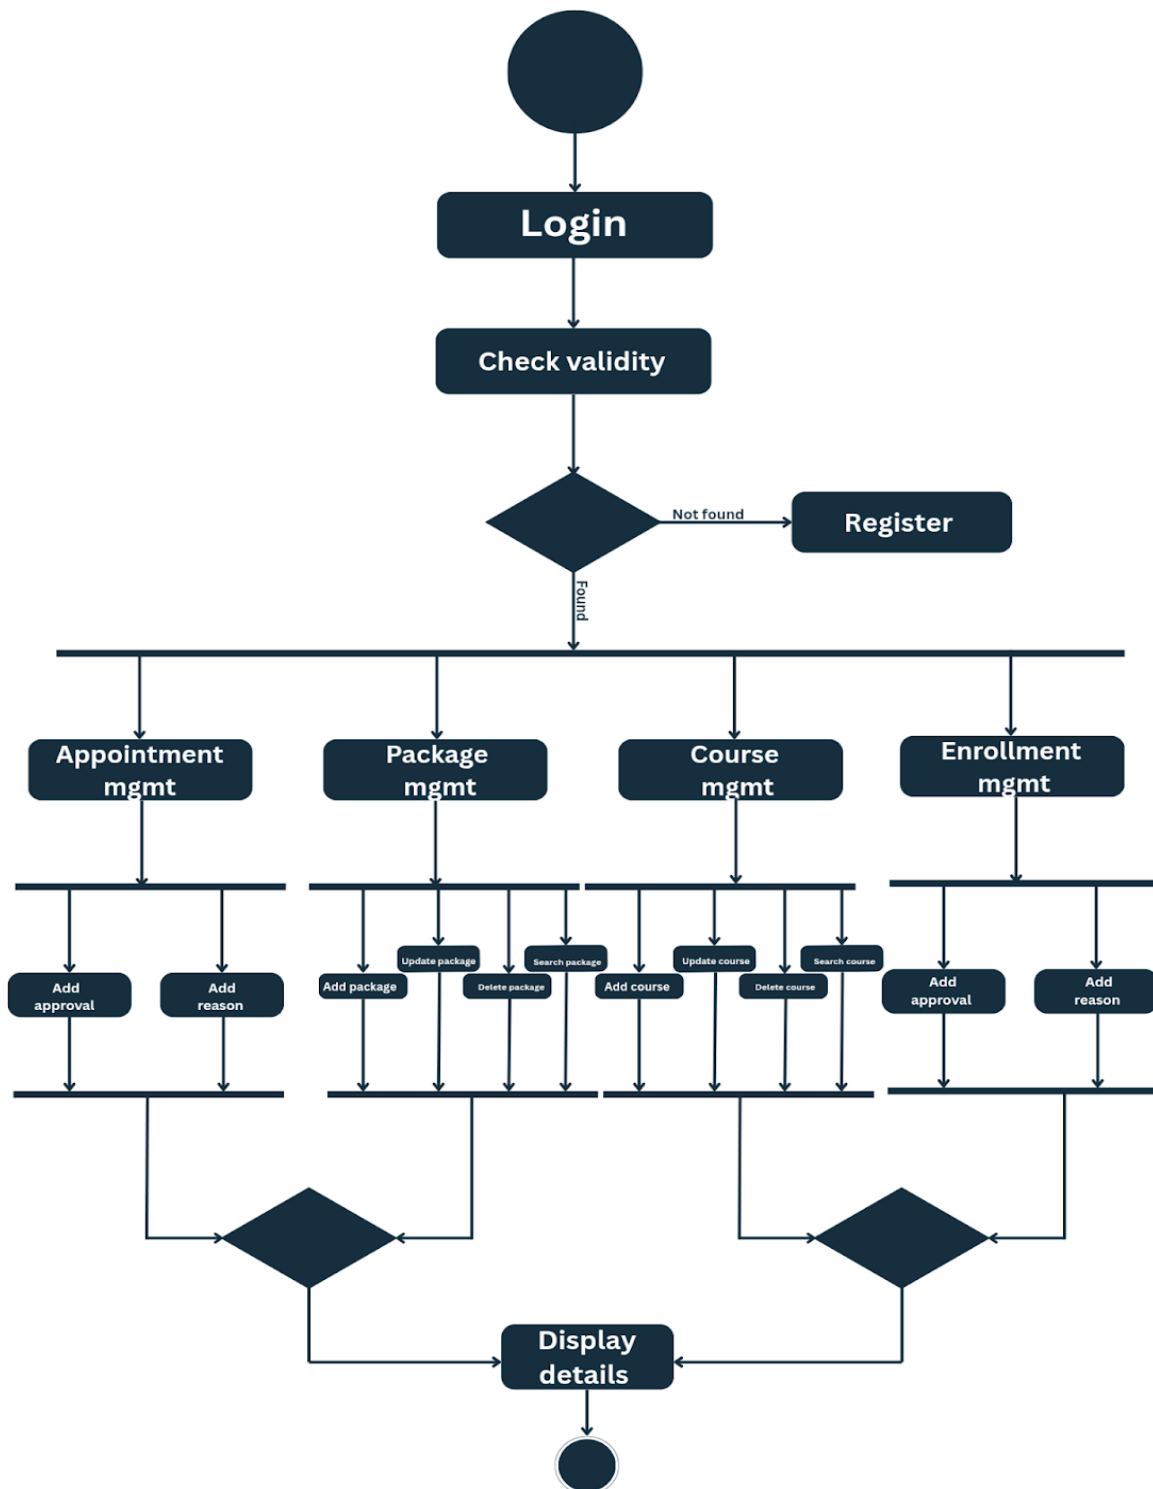

Name	Description
Alias Name	Enrollment
Where and how used?	Managing Enrollment for Student courses.
Description	Stores the schedule of student Enrollments.
Attributes	Enrollment_id (primary key), Student_id (foreign key), time.

7. Feedback

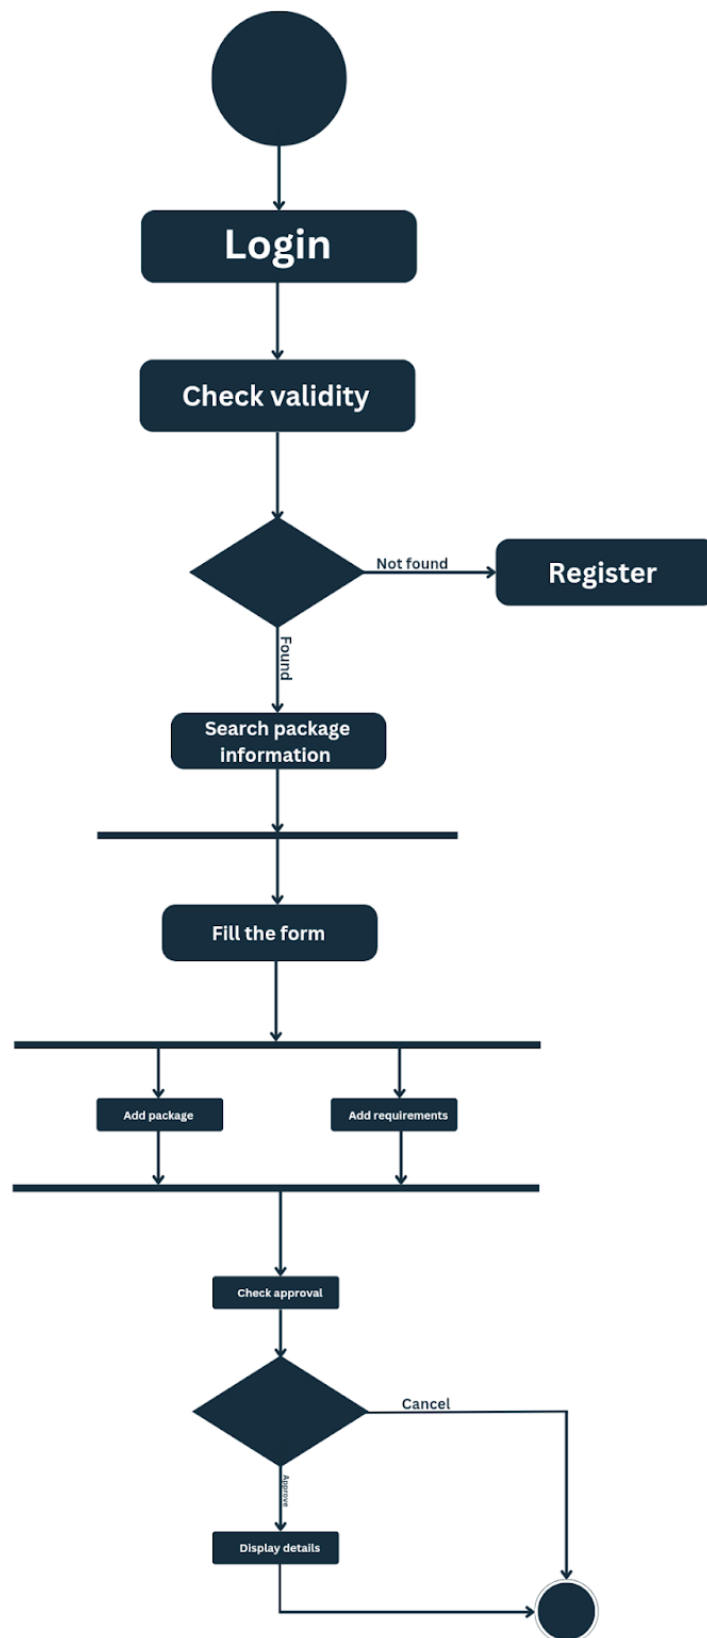

Name	Description
Alias Name	Review
Where and how used?	Used to store and analyze feedback from clients about service and experiences.
Description	Stores the details of feedback provide by clients regarding bridal packages and appointments.
Attributes	Client_id(foreign key),name, comment, rating.

4.4 ACTIVITY DIAGRAM

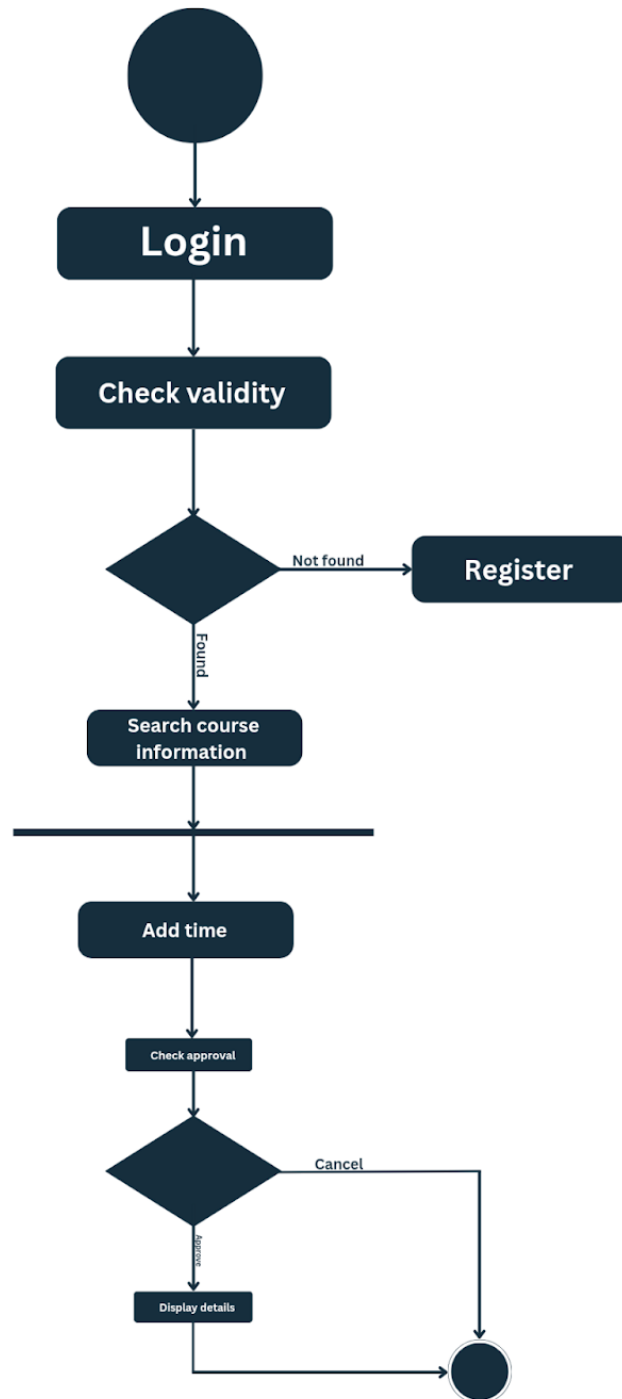

4.4.1 ACTIVITY DIAGRAM FOR ADMIN:

4.4.2 ACTIVITY DIAGRAM FOR CLIENT:

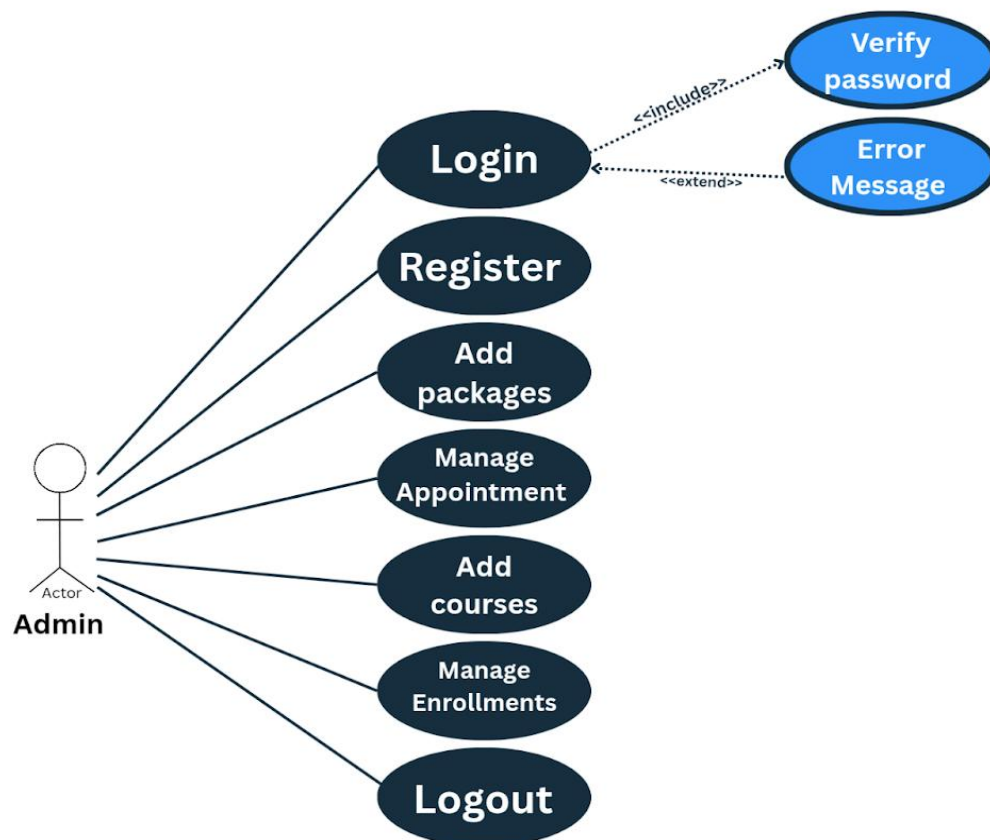

4.4.3 ACTIVITY DIAGRAM FOR STUDENT:

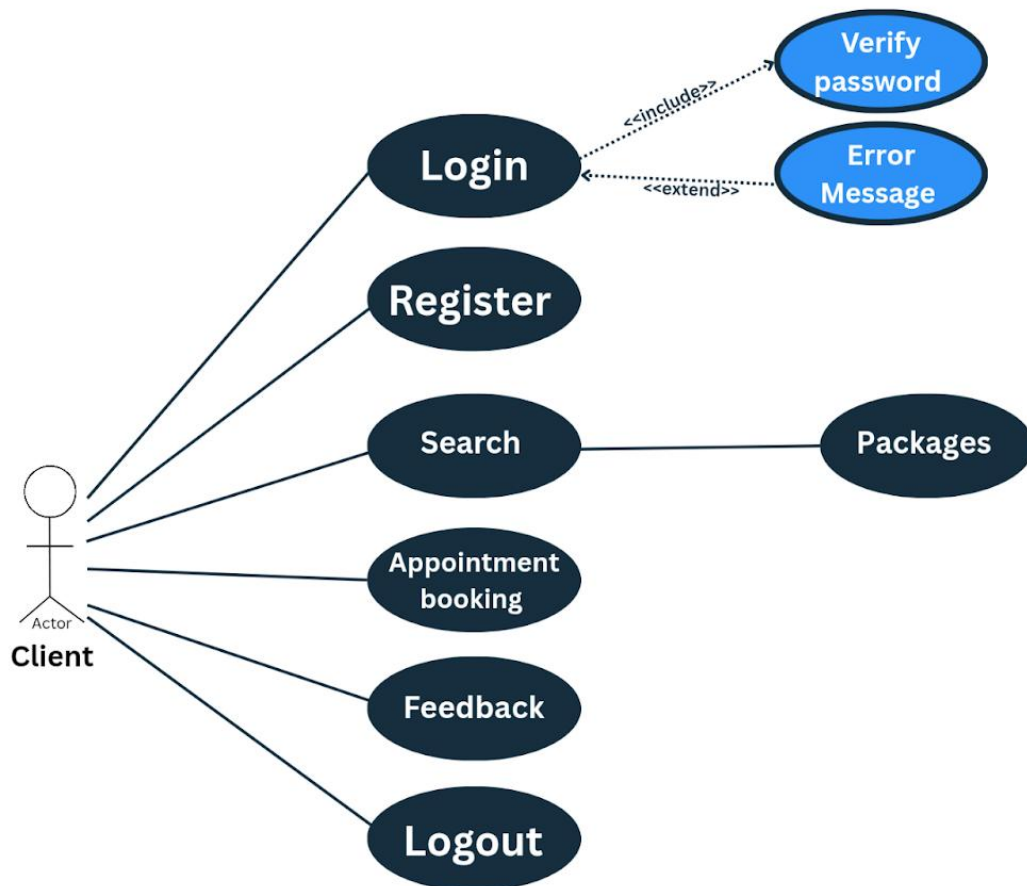

4.5 USE CASE DIAGRAM

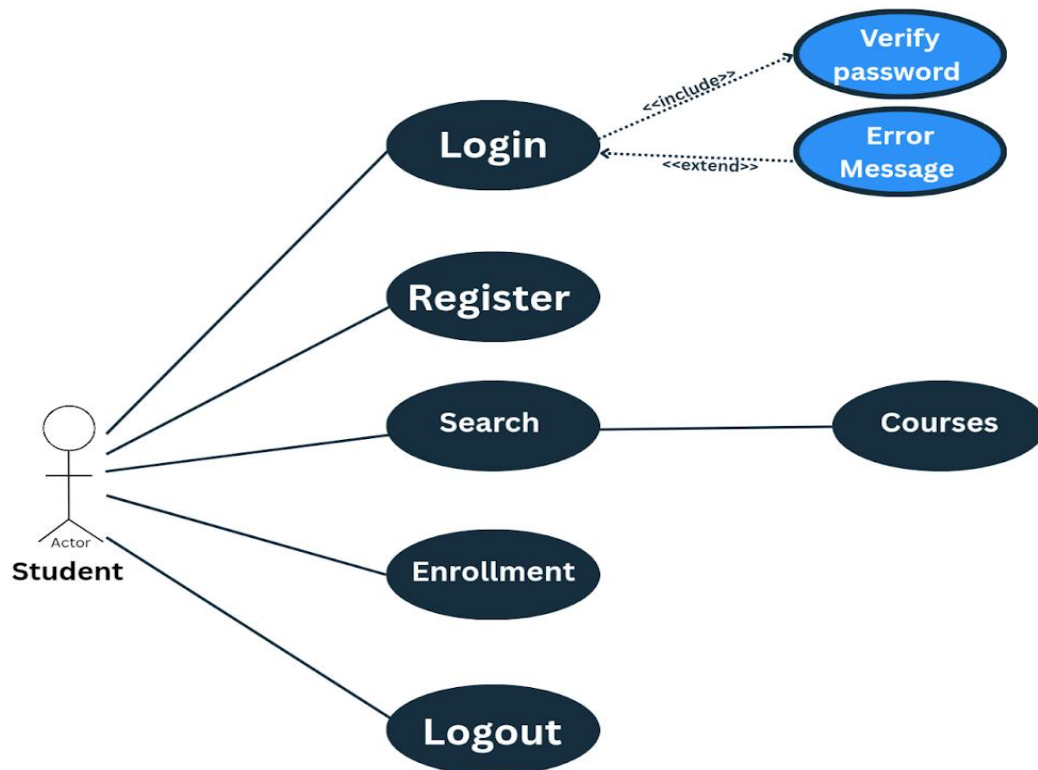

4.5.1 USE CASE DIAGRAM FOR ADMIN:

4.5.2 USE CASE DIAGRAM FOR CLIENT:

4.5.3 USE CASE DIAGRAM FOR STUDENT:

4.6 TESTING:

➤ Unit Testing

This involves testing individual units or components of the applications, typically at the class level.

5. DESIGNING

5.1 DATABASE DESIGN

➤ ADMIN TABLE

Database Field	Data Type	Description
Admin_id	Varchar(50)	Id of admin
Admin_name	Varchar(50)	Name of admin
Password	Varchar(50)	Stores the admin password
Approve	Varchar(10)	Yes or no
Cancel reason	Varchar(200)	Stores the cancel reason

➤ USERS TABLE

Database Field	Data Type	Description
User_id	Varchar(50)	Id of User
User_name	Varchar(50)	Name of User
Date	Date	Registration Date
Email	Varchar	E-mail of registered user
Role	Char	Role of the registered user (student / client)

➤ APPOINTMENTS TABLE

Database Field	Data Type	Description
A_id	Varchar(50)	Appointment id
User_id	Varchar(50)	User id from register table
Date	Date	Appointment Date
Time	Varchar(30)	Appointment Time
Package	Varchar(50)	Select specific package
Requirement	Varchar(100)	Any other Requirement
Service	Char	Home/studio

➤ ACADEMY COURSE TABLE

Database Field	Data Type	Description
C_id	Varchar(50)	C_id of course
C_name	Varchar(50)	C_name of course
Fees	Int	Fees of course
Image	Varchar(50)	Image of course
Batch	Varchar(50)	Batch time for course

➤ PACKAGES TABLE

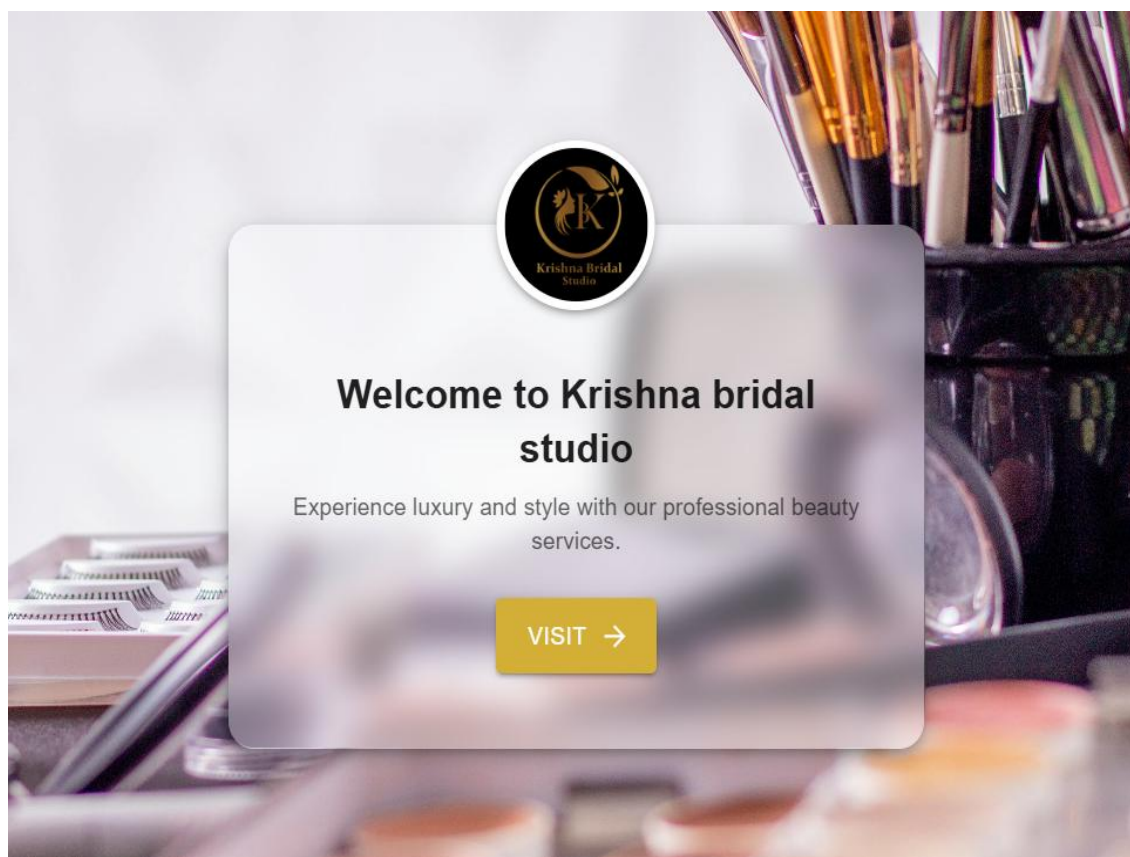

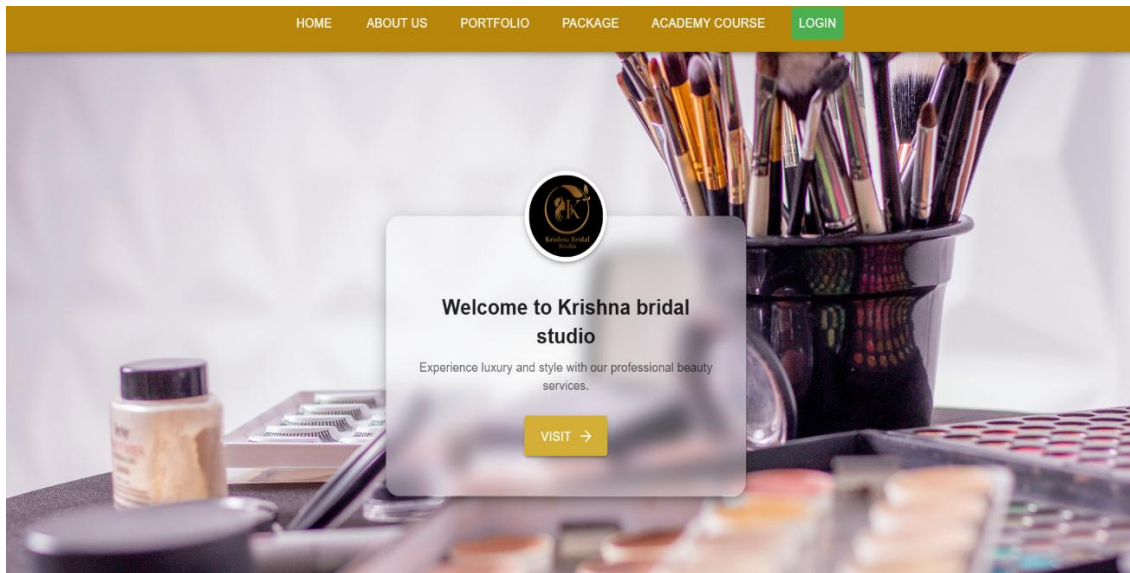

Database Field	Data Type	Description
P_id	Varchar(50)	P_id of package
P_name	Varchar(50)	Specific package name
Price	Int	Price of package
Desc	Varchar(50)	Description of package
Image	Varchar(50)	Image of package

➤ **FEEDBACK TABLE**

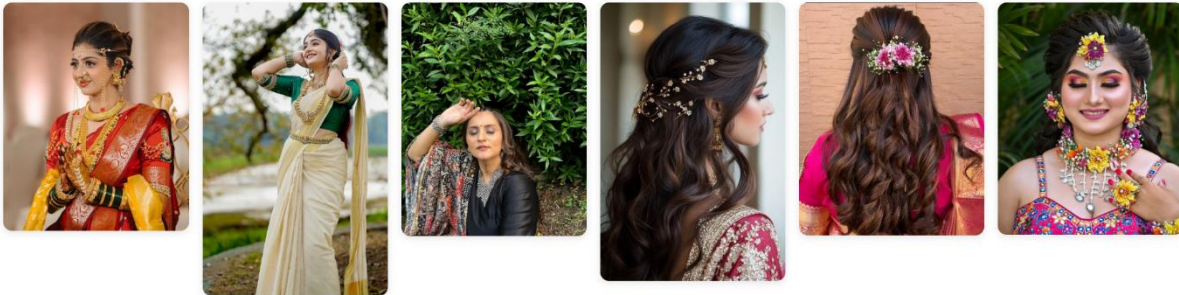

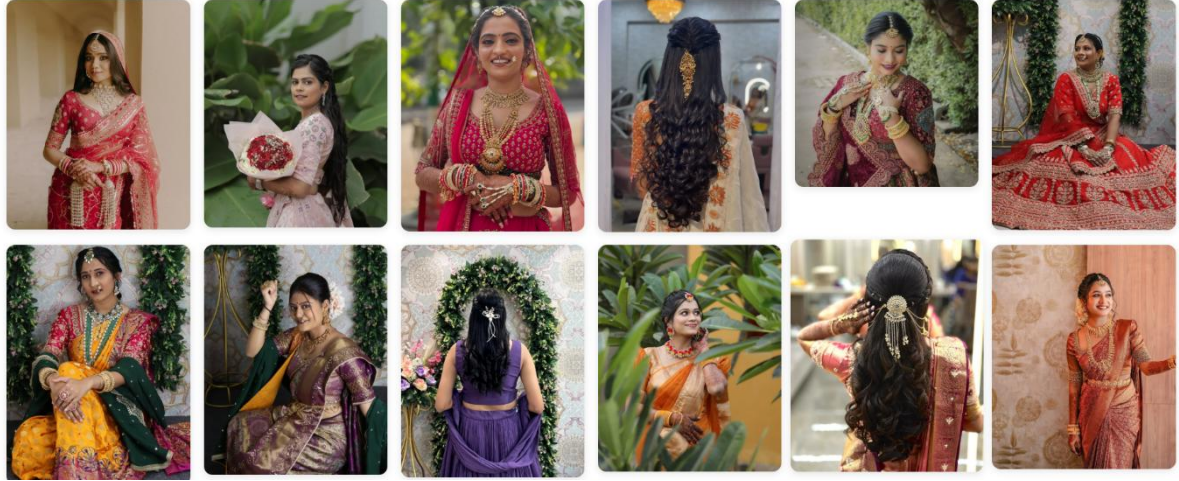

Database Filed	Data Type	Description
User_id	Varchar(50)	User Id of the registered user
Name	Varchar(50)	Name of person
Rating	Int	Overall review
Comment	Varchar(50)	Written feedback or comment

6. ADVANTAGES AND DISADVANTAGES:

➤ ADVANTAGES:

1. Streamlined Operations

- Integrates various functionalities such as appointment booking, student enrollment, and client user management.
- Reduces manual work and improves efficiency.

2. User -Friendly Interface

- Provides a centralized platform for clients, students, and admins to access information easily.
- Simplifies the booking and enrollment processes.

3. Feedback Mechanism

- Enables clients to leave feedback and reviews, which can be used for continuous improvement.
- Helps in maintaining service quality and addressing client concerns promptly.

4. Improved Client Relationship Management

- Facilitates better communication and relationship management with clients through profiles and feedback.
- Helps in understanding client preferences and improving service delivery.

5. Data Management

- Efficiently manages user data, appointments, courses, and packages.
- Facilitates easy retrieval and analysis of information.

6. Customizable Packages

- Enables the generation of reports on appointments, feedback, and financials, aiding in decision-making.
- Helps in identifying trends and areas for improvement.

7. Comprehensive Reporting and Analytics:

- Allows clients to select and customize bridal packages according to their needs.
- Enhances customer satisfaction by offering tailored services.

➤ **DISADVANTAGES:**

1. Initial Setup Cost

- Development and implementation of the system may require significant investment.
- Ongoing maintenance costs can also be a concern.

2. Technical Issues

- Potential for software bugs or system failures that can disrupt operations.
- Requires regular updates and technical support.

3. Data Security Risks

- Storing sensitive user information poses a risk of data breaches.
- Requires robust security measures to protect client data.

4. Ongoing Maintenance Requirements

- The system will require regular maintenance and updates to ensure optimal performance and security.
- This can lead to additional costs and resource allocation.

5. Dependence on Internet Connectivity

- If the system is cloud-based, it requires a stable internet connection, which may not always be available.
- Can disrupt operations during connectivity issues.

6. Limited Personal Touch

- Automation may reduce personal interactions, which can be crucial in service-oriented businesses like bridal studios.
- May affect the overall client experience if not managed properly.

7. FUTURE ENHANCEMENT:

1. Online Payment System:

- Allow client and student to make payments directly through the system using **UPI, credit/debit cards or net banking**.
- This enhances convenience and ensures timely payment.

2. Order And Customization Tracking:

- Include order status updates via **email/SMS notifications**.

3. Mobile App Version:

- Developing a mobile application version of the system would allow clients and students to book appointments or enroll in courses on the go.
- **Increasing accessibility and user engagement..**

4. AI-based Scheduling Assistant:

- Use AI to **automatically suggest the best available time slots** for appointments and classes based on staff availability and client preferences.
- Improving efficiency.

5. Inventory Management System:

- **Track and manage stock of beauty products, accessories, and tools.**
- This ensures that supplies are available when needed and helps avoid over-purchasing.

6. Cloud Backup and Data Sync:

- Store all system **data securely** on the cloud to prevent data loss and allow synchronization across multiple devices or branches.

7. Social Media Integration:

- Integrate with platforms like **Instagram and Facebook** to share appointment links, promote bridal packages, and display client testimonials or portfolios.

8. Appointment Rescheduling Option:

- Enable clients to **reschedule their appointments** with minimal effort directly from the system.
- Improving flexibility and customer satisfaction.
